

WÖHLER

WÖHLER A 450 FLUE GAS ANALYZER

Compact, rugged, loaded with smart functions.

The Measure of Technology

Made in Germany

Wöhler A 450 Flue Gas Analyzer

The new compact class – robust and smart

This is where Wöhler excels: A reasonably priced flue gas analyzer that offers all measurement and tuning functions. A small and lightweight flue gas analyzer enclosed in an eye-catching, robust housing. The Wöhler A 450 is a handheld device with a user friendly touchscreen. Simply display all measurement data on the large screen, or connect the device and view the results on your mobile devices.

Compact with a full range of functions

The Wöhler A 450 is a robust measuring device that combines solid workmanship with a clear color display. All measured values are displayed clearly at a glance. The Wöhler A 450 is a well rounded tool that offers measurements such as flue gas analysis, draft measurement, burner tuning guide, adjustment tasks on gas and oil systems and even solid fuel fireplaces. Typical Wöhler.

In true Wöhler fashion, the device is compact and lightweight by design and is guaranteed to be user friendly. Intuitively easy to use: The menu consists of icons similar to that known from smartphones. The user simply taps an icon to open the individual menu items.

Smart functions

In addition to the user-friendly convenience of the touchscreen the Wöhler A 450 also offers the advantages that smart devices provide: You are able to transmit all measurement data to a mobile devices (smart-phones, tablets by Android and iOS) per Wireless LAN. These devices can then display the measurements as numerical values or as a graph in the Wöhler A 450 app. The app gives technicians the option of reading measurements already taken and also the ability to take new measurements through the app. This proves to be particularly practical when measuring at spots with poor accessibility. The measurement data can be saved in different formats and can be sent to the customer by email.

- ▶ Switch on – read off – done
- ▶ Rugged and compact analyzer that offers all measurement and tuning functions
- ▶ High-resolution 5" color touchscreen: 14 measured values available at a glance
- ▶ Future-proof network connectivity with Wireless LAN
- ▶ Wöhler A 450 app included for Android and iOS

¹⁾ Wöhler A 450 L: 24 months; Wöhler A 450 / 450 H: 48 months; excludes thermocouples, rechargeable battery and optional NO sensor. For more information please see our Terms and Conditions.

5" large color touchscreen
All measured values available at a glance thanks to high-resolution display.

Wöhler A 450 App (Android & iOS)
Displaying the measured data on a mobile device.

All values at a glance
The tuning guide offers an advanced guidance to the technician to properly adjust the burner.

Interface to the printer
Printout of the measured data on site.

Easy maintenance
Condensate trap can easily be pulled out to change cotton wool and water stop filters.

Perfect size
Compact and light in a plastic case.

✂ Application

- ▶ Residential flue gas analysis
- ▶ Service and maintenance tasks
- ▶ Determine flue gas loss and burner tuning
- ▶ Immission control measurements (1st BImSchV)
- ▶ NO measurement (optional)
- ▶ Differential pressure / gas pressure measurement

⚙ Functionality

- ▶ Simple to use: Switch on – read off – done
- ▶ Large 5" color touchscreen: Displays up to 14 measurement readings
- ▶ Intuitive to operate via on-screen keyboard
- ▶ Graphic hotspot search

🔧 Safety / Reliability

- ▶ 24 or 48 months guarantee without maintenance agreement¹
- ▶ Effective condensate protection
- ▶ Multistage filter technology incl. water stop filter
- ▶ Electronic filter monitor with illuminated condensate trap
- ▶ Analyzer and sensor diagnostics
- ▶ Field replaceable sensors – user-friendly
- ▶ Rechargeable battery operating time: up to 17 h with lithium ion power
- ▶ Hose assembly – robust and flexible

📁 Data management

- Store up to 1.000 customer records
- Data transmission by USB, Wireless LAN or infrared
- Wöhler A 450 app included

Technical data	
Display	5" color touchscreen
Sensors	up to 3
	O ₂ 0...21 %
	CO _v 0...5.000 Vol. ppm
	0...10.000 Vol. ppm
	0...10.000 Vol. ppm, H ₂ compensated
	0...100.000 Vol. ppm
	NO _v 0...3.000 Vol. ppm
Power supply	Wöhler A 450 L: Lithium-Ion, rechargeable battery 3,7 V, 2.250 mAh, charges via USB Wöhler A 450 / A 450 H: Lithium-Ion, rechargeable battery 6,7 V, 2.250 mAh, charges via USB
Battery operating time	Wöhler A 450 L: Approx. 6 h Wöhler A 450 / A 450 H: Approx. 17 h (depends on operating status and display illumination)
Weight	620 g (with NO sensor included)

Wöhler A 450 APP

Do you prefer to do everything with your smartphone or tablet? Then the Wöhler A 450 App is exactly the right choice for your measuring and adjustment work. No matter if you are using an Android or iOS device.

Homepage of the Wöhler A 450 App

Display of all measured values at a glance

Dispatch of measurement data to the customer

- ▶ Remote control of measurements at locations where access is difficult
- ▶ Direct Wireless LAN connection to the smart device – future-proof connectivity
- ▶ Data can be sent from smartphone / tablet by email

TUV test registered for 1st BImSchV (German Federal Immission Control Act and KÜO (German sweeping and inspection ordinance), for oil or gas firing installations to VDI 4206 Part 1 and DIN EN 50379 Part 2

¹ Wöhler A 450 L: 24 months; Wöhler A 450 / 450 H: 48 months; excludes thermocouples, rechargeable battery and optional NO sensor. For more information please see our Terms and Conditions.
